

Prerequisites IBM Cloud Service

Team ID	PNT2022TMID18013
Project Name	IOT Based Real-Time River Water Quality Monitoring and Control System

IBM ACCOUNT DASHBOARD:

The screenshot displays the IBM Cloud Account Dashboard. At the top, the header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user's account (Smitha Rajini T's Accou...). The main section is titled 'Dashboard' and features a 'For you' section with six recommended actions: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a virtual machine' (Lift and shift your VMware workloads to the IBM Cloud), 'Get started with Watson Discovery' (Get up to speed on Watson Discovery with step-by-step tutorials, deep-dive videos, and complete examples of working code), and 'IBM Log Analysis with LogDNA' (Troubleshoot logs in real-time to diagnose issues and identify problems. Leverage hundreds of integrations and built-in IBM Cloud logging). Each action includes a 'Getting started' or 'Recommended' button and a time estimate. Below the 'For you' section, there are four panels: 'News' (Introducing Badges to IBM Cloud Certification, Announcing IBM SevOne Network Performance Management Version 6.4, IBM Named a Leader in Gartner Magic Quadrant for Full Life Cycle API Management), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status' (View all). The dashboard also includes links for 'Edit dashboard', 'Upgrade account', and 'Create resource'.
